To Whom It May Concern,

It is my pleasure to provide a reference for Daniel Correia.

I had the opportunity to work with Daniel as part of the Summer Company Program. Summer Company is a program of the Ministry of Economic Development, Employment and Infrastructure and is administered by the Small Business Enterprise Centre. As part of the program, Daniel developed a solid business plan, started his business, participated in ongoing mentoring and training, and implemented the business according to the objectives and targets outlined in his plan. Daniel successfully launched Based on Technology (BOT) as part of Summer Company.

Throughout the course of the summer Daniel clearly demonstrated his creativity, passion for technology and a strong desire to help others. He was very interested in continually learning about new methods of developing his products and services, as well as running his business. Daniel has a very strong work ethic and is committed to his products and business. He participated in group mentor meetings and happily shared his tips and lessons learned with the group. Daniel developed as an individual and as an entrepreneur while running his business. I truly enjoyed working with him over the summer.

Sincerely,

Gillian Fairley
Manager, South Georgian Bay Small Business Enterprise Centre
